

## **Toxic Stress and Child Development**

**Date:** April 7, 2020

**Time:** 11:00a.m.

**Target Audience:** Providers who work with families and youth.

**Description:** A child's earliest years are the most crucial for brain development. Living in stressful environments can negatively affect a child's emotional, social, and physical development. Through this training, attendees will be provided with an overview of how stress can affect brain development, and be shown how to identify potentially unsafe children and the steps to take when suspicion arises.
